A boutique hotel ambiance was the ultimate goal for this master retreat, which features both tailored and lush elements. Rich textures, interesting patterns, wall-to-wall draperies, sculptural elements, and a cozy sitting area tie the space together. Pristine Thassos white marble floor tile leads you to the bathroom's (not shown) focal point: A freestanding tub and bespoke Roman shade and draperies. A striking high-contrast shower adds drama.

CONTEMPORARY DINING ROOM

“  
Judge’s Insights

Bold patterns, rich textures, and metallic materials come together so well to create this eclectic and ethereal dining room by Merien Daka Design Group.

This dining room is worth talking about! Grass cloth wallcovering adds texture and depth, while bold patterns on the host and hostess chair and rug create excitement. Floor-to-ceiling and wall-to-wall sheer draperies soften the bold patterns. A found art piece ties everything together with its hues of mauve (from the grass cloth wallcovering) and green (to complement the velvet side chairs). A touch of gold provides balance.

Talk about drama! You're welcomed into the great room by two custom 10-foot-tall metal panel dividers. The fireplace reaches all the way up with marble; three steps on the sides create depth. A border around the fireplace wall forges a focal point, while antique mirror glass tiles with beautifully detailed corner rosettes soften the heavy, dark fireplace. A combination of textures, materials, and patterns tie this space together.
